Description

NexSys® batteries now power more than 30,000 applications across North America and are now suitable for higher capacity Class I, II and III applications in addition to small traction applications. Featuring proprietary Thin Plate Pure Lead (TPPL) technology, the NexSys battery portfolio includes configurations that can fast-charge in less than 2 hours and opportunity charge in less than 4 hours.

The NexSys battery line also provides energy throughput of up to 160% in a 24-hour period. The batteries also offer extended life cycles exceeding 1,500 cycles* at 60% Depth of Discharge (DOD).

**1200 cycles (at 60% DOD) for 38, 62 and 90 Ah models*
