12V 16Ah Pure Lead Battery for Solar Power / Wind Power / Hybrid Electric Vehicles

Rating: Not Rated Yet

Manufacturer

Description

Since its introduction in the early 1990's, the Genesis XE thin plate pure lead (TPPL) battery has established itself as a premium high performance battery suitable for a wide range of demanding applications.

Today, Genesis XE TPPL technology can be found in alternative energy applications such as solar and wind power and Hybrid Electric Vehicles (HEV). The Genesis XE battery utilizes the TPPL technology to crank out enormous power in a smaller footprint making it ideal for custom applications where space is of the utmost importance. The Genesis XE battery has a more rugged design, including a metal jacket, allowing it to be ideal in harsh environments such as heat and shock and vibration applications.
